

The soap used in this hotel was produced by MAPALUS MOKUPA, an NGO established to provide employment to disadvantaged villagers in Mokupa Village, North Sulawesi, Indonesia.

It is made using only fresh, local grown fruit, with fragrances of the islands of Indonesia. All products are handmade. We use no preservatives and the ingredients are all vegan.

By choosing to use Mapalus Soap, this hotel is helping local people to find a livelihood and is supporting their families to a better future.

If you'd also like to help Mapalus Mokupa support local people, please purchase a Soap Selection Bag, sold at the hotel boutique. Each bag contains four soaps, in vanilla, lemongrass, lavender & coconut. They make great gifts for family or friends back home. In purchasing these little fragrant indulgences, you are making a real difference to local people's lives. The NGO is a no-profit organization: all its income goes to community and environmental projects such as waste management, child education and sustainable job creation.

*“Mapalus”: Helping each other*
